

EASY TO INSTALL HDMI[®] SOLUTION PIECES

Must haves in your toolbox at all times for a quick fix that will get you out of a problem project fast!

40 Gbps
4x12ch
8K HDR

HDM-AIO2

All-in-One Correction Tool

Not sure what is causing the problem? This single tool fixes the majority of HDMI[®] issues, working as an EDID regenerator and hot plug interrupt while also supplementing voltage/current in the TMDS feed, 5V feed and hot plug feed, plus proving voltage matching for both the input and output.

48 Gbps
4x12ch
8K HDR

HDM-JR4

EDID BOOSTER

The HDM-JR4 strips capacitive loading off of the DDC (EDID) Bus, this reduces the Data Rise and improves the consistency and reliability of the low speed communications. Supporting 48 Gbps (4 x 12 Gbps per channel). Bi Directional EDID Repair benefits for both input and output stages.

48 Gbps
4x12ch
8K HDR

HDM-SP3

HDMI Surge Protector

Protect sensitive HDMI[®] electronics from electrostatic discharge (ESD). Originating from a CATV or Modem feed, and then passing through the Coaxial, Ethernet, or Serial data ports, ESD can and will burn out the HDMI[®] ports on your devices.

48 Gbps
4x12ch
8K HDR

HDM-EDIDB3

EDID Blocker

Blocks the EDID stream to eliminate issues when integrating video surveillance DVR/NVR devices into a distributed HDMI[®] system where more than one display is used.

24 Gbps
4x6ch
4K HDR

HDM-GA1

HDMI High Speed Accelerator

The HDM-GA1 is designed to support a full 4 channels x 6 Gbps per channel when used with passive 24 gauge HDMI[®] cables at distances of up to 15 meters (installed inline at the display).

48 Gbps
4x12ch
8K HDR

HDM-GA2

HDMI High Speed Accelerator

With 3 different input gain adjustments to match the quality your passive HDMI[®] cable, and 9 output EQ setting to match the input sensitivity your display the HDM-GA2 will take you to the very limit of passive Copper HDMI[®] cable
